You will protect your body from "cold"!

Bathing is a shower only with cold drinks and cold food even in winter, your living is like that, isn't it? It is said that "cold" is the source of sickness, such as poor blood circulation and metabolic function are reduced and people get colds because people shrink blood vessels as to prevent deprivation of body temperature when they getting cold. It is effective when warming at the body.

Well-measured values can be freely recorded. With free field

Write a plan for the month!

Numerical data that requires special attention is easy to understand by graphing!

Every month, with "useful knowledge" useful!
